

Extending the 183A Toll north from Hero Way to SH 29 will enhance mobility today and in the future.

PROJECT OVERVIEW

With unprecedented growth in Williamson County, most notably in Cedar Park, Leander, and Liberty Hill, traffic volumes along US 183 are anticipated to increase by 166 percent over the next 25 years driving the need for proactive congestion relief.

The Mobility Authority is proposing to extend 183A north from Hero Way to 1.1 miles north of SH 29 as Phase III of the 183A system. The 6.6-mile proposed tollway will have two tolled lanes in each direction with an option to widen to three lanes in the future. The proposed tollway is planned to be located mostly in the existing right-of-way within the median of the US 183 corridor. Schematic design, traffic modeling, and environmental investigations are underway. The extension will also feature a shared use path north from Hero Way to the proposed Seward Junction Loop project.

ANTICIPATING THE NEED

CEDAR PARK

Third largest city in the Austin Metro area

Approximately 33% population growth from 2010 through 2016

LEANDER

Grew by 62% from 2010 to 2016

By 2040, population projected to grow by 271%

LIBERTY HILL

Estimated 67% population growth from 2000 to 2016

LOOKING AHEAD

With the increase in population and planned transportation improvements, the corridor is expected to attract residential and commercial development resulting in economic growth for the community. Average daily projections show that growth is expected to more than triple by 2030. The extension of 183A Phase III will satisfy the additional demand for capacity and avoid future traffic congestion.

PROPOSED SOLUTION

Extending the existing 183A Toll will: SAVE commuters time. PROVIDE a reliable transportation option. ELIMINATE the need to use signalized intersections. MINIMIZE community impacts by working primarily within existing right-of-way.
